

Careers and the Com Arts Major

Radio-TV-Film

After completing a liberal arts education with a communication arts major, Com Arts alumni pursue a variety of careers. Below is a sampling of their occupations gathered from an alumni survey. Alumni selected the category that best described their occupation. Although the occupations have been divided by the concentration of study, students are encouraged to look at both lists. Many of the occupations can be pursued by students completing either concentration within the major. Some of the positions require additional education.

Letters and Science Career Services has a variety of resources on their website to help you explore career options (http://careers.ls.wisc.edu/students/career_options.html) and to assist you with your job search (<http://careers.ls.wisc.edu/students/>).
